User Comments and Ratings

Books Used By Professor

DATE	CLASS	RATING	COMMENT
2/5/06	BIO 101	Poor Quality Easiness Helpfulness Clarity Rater Interest	No Comments
1/10/06	BIO 206	Poor Quality Easiness Helpfulness Clarity Rater Interest	I ended up having to drop her class just because of her attitude and her teaching methods. She has this pompous I'm-right-you're-wrong type of personality and she seems to play favorites. I learned later from someone in the class that I had dropped that not one person got an A. Pick another teacher if you can.
12/24/05	Bio 101	Average Quality Easiness Helpfulness Clarity Rater Interest	She is a nice person but her class is pretty difficult. It's supposed to be GENERAL Biology but it's extremely in depth! I managed to get an A but only because I studied my ass off and did all the extra credit. Make sure to check her website for grading errors-she made several with me and only revised after I nagged her about it.
12/19/05	BIO101	Good Quality Easiness Helpfulness Clarity Rater Interest	as long as u do what u need to, you'll pass...also she gives a lot of extra credit.
12/14/05	BIO 206	Poor Quality Easiness	She doesn't know the material she teaches. She is unclear and changes her mind often. She doesn't know how to

Helpfulness

Clarity

Rater Interest

answer students' questions. Grading scale is out of wack; watch out for her subtracting points out of nowhere! Most exam questions are not on the material she lectures on. She uses a different textbook and not the assigned book.
